

PiQo4 Photofacial Post-treatment Instructions

The area treated must be protected with daily sunscreen of SPF 30 and reapply as necessary.

You may experience some mild redness up to 2-3 hours post treatment, however most discomfort should resolve within a few minutes after completion of treatment.

Improper care can increase the risk of complications and couple potentially cause a rebound of melasma to the area treated

Please notify Dr. George or her nursing staff at 910-256-4350, if you experience excessive pain, swelling, blistering, or have any questions or concerns.
